

"Clean water is medicine for life."

## Thanks for the Support!

To our brothers and sisters in Christ,

Thank you for your prayers, financial support, and participation in bringing clean water to communities in need in Guatemala and beyond! As you receive this we have a team in La Catarina, San Marcos, Guatemala working with a church with a Compassion International children's program.

### **Continued partnership with Compassion International**

Our partnership with Compassion International has resulted in twenty systems - thirteen of which have been installed since January 2015! The needy children of Compassion International's programs (see photo above) are in particular need of clean

water as 75% of them require regular medication for intestinal parasites. The communities that receive these clean water systems are being given a chance to live healthier, longer lives. According to research completed by recent trip participants Pete Emerson and Gloria Blanco, the systems installed in Guatemala generate \$4-5 of economic value for every \$1 invested by Living Water World Missions in their construction and maintenance. This is rare among non-profits and reason to give glory to God for what he is able to do through the clean water flowing from these systems. Thank you to Pete and Gloria for their work to document the benefit of these systems!

### **Water production**

Since January of 2015, fourteen systems have been installed in Guatemala. Over 2.7 million gallons of water have been produced by all of the 39 systems in Guatemala.

We continue our bottle matching program to match the purchase of empty five gallon bottles at installation sites. This helps system operators distribute water to those who need it!

### **WHATS COMING UP**

Here are upcoming trips to keep in your prayers. Dates for the rest of 2016 coming after the Operators Conference and surveys in December.

*[November 13-22]*

#### **[Cuba Trip]**

[Team sponsored by Gateway Bible Church will be installing a LWWM system in Santiago, Cuba.]

*[December 3-10]*

#### **[Operators Conference and Survey trip]**

[Board members and staff will be conducting an operators conference in Guatemala for the operators of systems from various sites. Following the conference, surveys of sites for 2016 will be completed.]

*[January 23-30]*

#### **[Installation trip to Zacaleu, Guatemala]**

[team full]

*[February 27-March 5]*

**[Installation trip to Pasac, Guatemala]**

[team full]
