

JOIN US

LWWM exists because of people joining together. Please consider joining us in this ministry of giving clean water so that more people find the Living Water of Jesus Christ.

PRAY

Join our email newsletters which contains regular prayer requests for LWWM.

GO

Join one of our short term installation and education teams.

GIVE

LWWM is a 501(c)3 nonprofit organization and is sustained by the generosity of people.

Most people give in one of the following ways:

- Ongoing monthly donation
- One-time gifts of any amount
- Fund one water system (\$4250)

ABOUT US

MISSION

Our mission is to share the Gospel of Jesus Christ in the context of installing sustainable water purification systems wherever they are needed. Working together we empower local ministry partners to bring physical, social, and spiritual transformation to their communities.

WHY?

Over 800 million people lack access to clean water. Every 2 minutes a child dies from a water-borne disease. It is the leading cause of death for children under age 5 in developing countries.

Access to clean water and proper hygiene improves public health, increases educational and employment opportunities, and equips a community to thrive.

Jesus Christ, the Living Water, calls us to show His love to others in His name and to make disciples of all nations.

THIS IS LIFE

1. INSTALL

LWWM teams install clean water filtration systems with in-country partners within three days. The systems produce up to 300 gallons of clean drinking water per hour, enough to supply over 1,200 families.

2. TEACH

Alongside the system installation, teams train leaders, families, and children health and hygiene education. The message of Jesus Christ as the Living Water is the priority in our teaching.

3. SHARE

All system operators, such as churches or schools, are responsible to share clean water with their communities. LWWM helps our partners find the best model that fits them to distribute clean water.
