

Spring 2023 LWWM NEWSLETTER

God's work in Bloom this Past Spring!

Spring was packed full with exciting installations and our Spring Fundraiser. Spring brought Living Water World Missions teams to Raxruhá, San Juan Chamelco and Guazacapán, Guatemala.

The March installation was in Raxruhá, Alta Verapaz, Guatemala at the Don Bosco Centro. This school site was amazing, bringing great opportunities for young men of Guatemala. Beyond their regular education curriculum, the school offers many trade school options ranging from woodwork and metal work to tailoring and cooking. The system will provide

clean drinking water for 600 students plus staff.

In April, a system was installed in San Juan Chamelco, Alta Verapaz, Guatemala at the Centro Don Bosco. This site is a sister-site to our installation site from March. All of the schools provide education and trade skill training to school aged boys, many of them having been homeless before. This system will provide for the 400 plus students and staff. A beautifully planned dedication ceremony left the team feeling very appreciated and a little teary eyed. We are once again amazed by the work these schools are doing for the future of Guatemala.

May brought LWWM to Guazacapán, Santa Rosa, Guatemala. This new upgraded system was installed at the Ministerios El Shaddai. The system will enable the church to continue to employ one operator and three others that distribute water. The church will continue to donate clean water to schools, the fire and police departments, another local church and to those families in need.

Spring Fundraiser Success!

Our Spring World Water Day Fundraiser was a huge success! Thanks to our amazing supporters, we were able to raise \$39,775, which greatly surpassed our \$20,000 goal. Thank you again to all who supported this fundraiser!
