

# Living Water World Missions

## Spring, 2015 Newsletter

Clean Water is Medicine for Life  
[www.livingwaterworldmissions.org](http://www.livingwaterworldmissions.org)

Greetings to you in the name of our Lord and Savior Jesus Christ, who is **Living Water** for our bodies **and** our souls. It is still Spring in Visalia, California since it is only June 16<sup>th</sup>! On behalf of the Board of Directors of Living Water World Missions, thank you for your continued prayer and financial support of our ministry in Guatemala. For trip and other information, please visit our website at [www.livingwaterworldmissions.org](http://www.livingwaterworldmissions.org). We have been busy and the Lord has blessed us – see below.....

LWWM Board Members receiving a check for \$900 from the AWANA boys of Visalia Evangelical Free Church in March, 2015.

Teachers from Iglesia Metodista Nazaret in February, 2015. Where's Jane Grassel?

These boys in La Democracia have tasted clean water and apparently like it!

- As of May, 2015 over 2 million gallons of clean water has been produced from 32 systems in Guatemala.
- This year, 7 clean water systems have been installed in Guatemala in conjunction with our partners from Compassion International.
- In April at our 2<sup>nd</sup> annual fund raising dinner, nearly \$25,000 was received in one-time and on-going support.
- Our featured speaker at the fund raising dinner was Jose Carlos Prem, in-country director of Compassion International. He challenged us not to tire of doing good works and gave thanks on behalf of many who will drink clean water for the first time in their life.
- Please be in prayer for upcoming trips. A team will be leaving on Saturday, June 20<sup>th</sup> to install systems in Totonicapan and Xela, located in the Northwest Highlands.
- Please be in prayer for those who would consider traveling with us. At a recent training, we met a number of people who are interested in participating with us.
- Please pray for our efforts to ensure the continued sustainability of each clean water system. Plans are in the works to do updated training for operators and health/hygiene educators in the months of November and December.
