

Winter 2019 Newsletter

Greetings!
Thank you for your support!
You are making a difference.
Let us share with you
what the Lord has done
over the last few months.
Read on!

We are starting off 2019 at full speed!

Two installations completed and three more planned before Easter!

We are thrilled to have completed one re-installation and one brand new installation already in 2019 in two different regions in Guatemala. It is a blessing to reaffirm our commitment to existing partners and connect with new ones in the first weeks of this year.

Our staff have already conducted one operator training as part of our Operator Certification program for the Sololá area cluster. This serves as part of our commitment to support our system partners and promote the long-term sustainability and effectiveness of our systems. In the next 2 months we will have completed 3 more installations - 2 in Guatemala and 1 in Cuba. We are eager to continue the work that God has laid before us and we ask for your prayers as we do so.

Plans for 2019

This year we have 12 installations planned with eleven of those being in Guatemala and one in Cuba. There are many trips with openings for team members, which are listed on our website.

Our Spring Campaign, 100 Family Challenge, will be in May this year. We hope you will consider taking part.

In addition, we look forward to our Annual

Banquet on October 25 in Visalia and our Annual Operator's Conference on November 9 in Guatemala.

Update on Josue

After three surgeries, Josue has nearly all of his eye sight restored in his eye that was injured last summer. The doctors have been satisfied with his recovery and healing. He has been humbled by the outpouring of support from so many of you and we all say THANK YOU!

Volcano Relief Continued

Last June we asked you to donate to LWWM to provide aid to victims of the Volcano del Fuego in Guatemala. Thanks to the generosity of so many of you we have been able to provide on-going resources to our mission partners in the areas affected as

January and February installations

Our first two installations of 2019 showcase two central parts of the LWWM ministry in Guatemala:

- 1) expanding clean water access to new communities as we did in February in Santa Elena, Peten;
- and 2) supporting our existing systems like we did with our re-installation of our 3rd system that was over 10 years old.

We had amazing teams for these two installations - 23 people from four states and a 62 year age difference between the oldest and youngest team members.

Plans for Cuba

In December, four of our board members returned to Cuba to check in on our two LWWM systems there and survey a potential new installation site. It was a blessing to reunite with Pastor Daniel of

they provide clean water and food to the volcano victims. Several of our systems have been providing clean water to volcano victims and we also assisted a volunteer fire department in water distribution to victims. The latest of the food distributions was just before Christmas, through My Father's House (Carlos and Heidi Fernandez) to three communities impacted by the volcano. The 100+ food baskets were gift-wrapped for Christmas!

My Father's House

Iglesia de Dios EC in Santiago de Cuba and with Pastor Ivan of El Cristo.

The Holy Spirit truly was at work in the churches visited and we believe God is opening doors to do more work in that country. There is a great need for clean water in many communities.

The first plan of action is an installation in Jatibonico (east of Santa Clara) at the Iglesia de Dios Monte de Oración. We are sending a small team there in late March to install the 3rd LWWM system there. We hope there may be more installations next winter.

Donate to the Cuba installation

Spring Campaign 2019 - 100 Family Challenge

Help us spread the word about **Living Water World Missions** this May by inviting your friends and family to take the **100 Family Challenge**!

From May 12 - May 27, set aside \$3 a day to donate to a LWWM system. If 100 families (or individual donors) can do **\$3 a day for 15 days** then we can give a whole community a water purification system that will **give clean water to 100+ families** for years to come.

We hope you consider taking the 100 Family Challenge and asking your church, your friends, your Bible study group, your family, or your co-workers to do it too!

Stay tuned for more details! Or **contact us now**.
